

Fuzzy Stick Peacock Feather

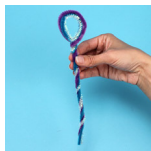

Instructions

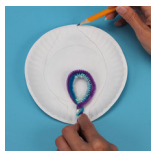

1 Gather your supplies.

2 Take a Blue Fuzzy Stick and Shimmer Stick and bend the top over to make a loop. Twist the two together to secure. Make sure the Shimmer Stick is on the inside of the loop.

3 Wrap a purple Fuzzy Stick around the outside of the loop created. Twist the remainder around the base.

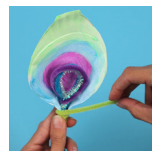

4 Lay the loop on a small paper plate. Use a pencil to draw a tear drop shape around the loop.

5 Use a scissor to cut out this shape.

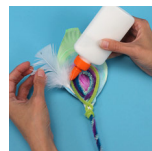

6 Use Acrylic Paint and paint a large circle in the center, then paint other colors around it as shown. Set aside to dry.

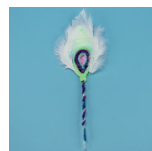

7 To secure the plate to the loop, gently fold the plate around the loop and wrap a green Fuzzy Stick to secure. Wrap the extra green Fuzzy Stick around the purple loop of the feather and then twist around the bottom of the loop.

8 Wrap the extra green Fuzzy Stick around the purple loop and twist around the bottom of the loop.

9 Glue white Feathers around the edge of the painted plate.

10 Congrats! You have made your own crafted peacock feather using Fuzzy Sticks, a paper plate and feathers!
