

## Melty Bead Locker Magnets

### Instructions

**1** Gather your supplies.

**2** Place Melty Beads onto pegboard surface in pattern as desired. **Tip:** The Melty Bead Ultimate Kit comes with several pegboards.

**3** Use iron and ironing paper to melt beads.

**4** Once the shape is cooled, pull off the pegboard and place on a flat surface. Dress these shapes up a little further by gluing on Acrylic Jewels. In our examples, we added several Acrylic Jewels on the cupcake as sprinkles, added jewels to the dogs eyes, mouth and collar, and used a large Acrylic Jewel for the center of the flower.

**5** You may also want to use Fuzzy Sticks for some extra fluff or accents to your magnets. We created leaf shapes out of a green Fuzzy Stick to the flower melty bead project and wrapped the Peace Symbol in a black Fuzzy Stick.

**6** Once you are done decorating your Melty Bead shapes, glue on a Magnetic Button to the back and stick to the locker to hold your notes or favorite pictures!

**7** Once dry, your magnets are ready to hang on your locker or fridge to hold up notes or favorite pictures!
